Norwex Microfibre Clean with Only Water

- **Your home will have fewer chemicals.** There's simply no need for potentially unhealthy, chemical-laden cleaners.
- **Superior quality that also saves you time and money:**
 - At 1/200th the thickness of a human hair, our microfibre has much more surface area per square metre of cloth. The result? Incredible cleaning power!
 - Absorbability and durability that's second to none. The dense weave of our ultra-fine fibres means you won't find a better microfibre anywhere.
 - Our microfibre can save a typical family of four almost \$600 per year on cleaning supplies!
- **Tested to remove up to 99% of bacteria from a surface with only water.** Your home stays cleaner with fewer chemicals.
- **Our BacLock[®]** antibacterial agent.** Micro silver in the wet cloth self-cleanses within 24 hours to drastically reduce mould, fungi and bacterial odour. Your cloths and towels stay cleaner and fresher, longer.
- **Microfibre Made from Recycled Materials.** Helps reduce plastic in landfills!

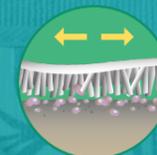

Our Newest Innovation Is Made from up to 70% Recycled Materials!

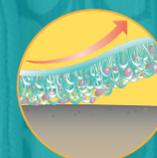

* When following the proper care and use instructions.

** This graphic is noted throughout the catalogue to differentiate those products that contain an antibacterial agent for self-cleansing purposes only. The agent is solely designed to inhibit bacterial odour, mould and/or mildew growth within the product.

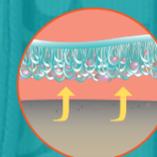

How Norwex Microfibre Works

Traditional cotton cloth pushes around particles, spreading dirt, grime and moisture into the surface crevices, leaving it moist and unclean.

Norwex Microfibre lifts and collects particles. Norwex Microfibre attracts even the smallest particles of dirt, grease and moisture, leaving the surface free from everything.

Norwex Microfibre self-purifies. Used wet, the micro silver in the cloth goes to work with self-purification properties.

USE IT DRY TO DUST

Norwex Microfibre is a better way to clean. By producing an electrostatic charge, it picks up and holds even the smallest particles in its fibres, creating a cleaner surface that lasts longer with no harmful chemical residue to collect more dust.

USE IT WET TO CLEAN

When wet, Norwex Microfibre loosens and lifts the most stubborn dirt and debris up into the cloth and away from the surface. Simply wet thoroughly, wring well, fold flat and wipe away grime from all washable surfaces.

CARING FOR YOUR NORWEX MICROFIBRE IS EASY.

For best results, simply wash using a Norwex laundry detergent and toss in the dryer or hang on the line. Avoid bleach, fabric softeners and dryer sheets as they will coat the fibres and reduce their ability to clean effectively.

When using on easily scratched surfaces such as brushed stainless steel, first test Norwex Microfibre on an inconspicuous spot. Do not use microfibre (except Norwex Optic Scarf) on anti-glare surfaces.

All Norwex Microfibre products carry a two-year warranty. Please visit norwexbiz.com.au/en_AU/norwex-guarantee for complete details.

My Story

"My journey with Norwex began 5 years ago when I was on 2 years maternity leave. I had decided to host, just to help my sister in law out, who had just joined. Little did I know that I would achieve a heap of freebies and fall in love with the products and want to share them with everyone!!

I never returned to my original career but instead have enjoyed the flexibility of a job I love, overseas family holidays and many other incentives. Plus love the fact I have the opportunity to change one home at a time!

Now I lead an even bigger Team, of amazing people all helping to make a huge difference too!"

My Story

"7 years ago, my life changed for the better as I was introduced to Norwex. I certainly didn't feel this way when I attended my first party, I just thought it was another money-sucking product that I'd buy to support my friend and never use... oh how wrong I was!!!

6 months into joining Norwex I was financially able to leave my part-time job and I've never looked back! I work this amazing business around and with my young family. I'm so grateful for the opportunity to be the role model for my kids that I've always wanted to be. They too are learning with me about how to care for our environment and the effect harsh chemicals have on our bodies. I love the legacy I'm leaving them, that for them Norwex is "normal" cleaning and they will never have to go down that cleaning aisle in the Supermarket. The products just keep getting better and after 7 years I'm still so passionate about my "job" and the difference I'm making to others' lives. I'm so committed to the Norwex Mission... Improving quality of life by radically reducing chemicals in our homes. This is where I'm meant to be xo"

My Story

"SITUATION: My youngest of three kids was now at school... we needed a bit of extra money... it was time for Mum to go and get a part-time job... GROAN!!

PROBLEM: I'd had a flexible self-employed lifestyle for the past 10 years. The mere thought of getting a 'regular' job and being tied to a schedule, being away from home most of the day, missing out on kids' events, sports, brunch dates with my self-employed husband and the occasional sneaky weekday sleep-in, made me really dread getting back into the 'regular' workforce.

SOLUTION: Norwex !!! Sometimes things happen at the right time for the right reason – I discovered Norwex products and launched my new Norwex business and instant part-time job that very same day! The money is great, but the flexibility is GOLD! Love continuing to be self-employed and you know what – it's really fun and easy too!"

My Story

"I never set out to do direct sales. If you'd told me 5 years ago that I'd be doing this to earn my full-time income, I'd have laughed at you.

Enter, Norwex... and EVERYTHING changed! I fell in love with these products (no surprise, who wouldn't!?!). And despite the fact that I was a reserved (definitely NOT a salesperson), busy wife and mum of 3 kids, I found myself doing parties and having fun!

After only 4 months I was able to quit my admin job, and work for myself. And what a blessing this business has been! Not only have I grown as a person, I've been rewarded with new friendships, a fantastic fun and growing team, overseas trips, and the ability to show my kids that if you set your mind to something, anything is possible. Norwex really has changed my life. What could it do for you?"

My Story

"I initially joined Norwex to make a difference for my own family by Norwexing my entire home. We had only recently moved to Sydney and I wanted to be available for my 3 children and not return to the corporate work environment.

I'm so pleased that I pushed any doubts aside and decided to give the business a go. Where else could I be in business for myself with a minimal start-up investment, earn an income straight away and be part of a company with a Mission I believe in? The training, support and recognition is above and beyond anything I have experienced before. As you already know (or will soon discover), Norwex is too good a secret to keep to yourself. Awareness of the effects of harmful chemicals is increasing and Norwex is the perfect one-stop shop for many solutions for our home and family. This makes the sharing of the benefits of the Norwex range so rewarding and easy.

Being part of Norwex has brought me income, flexibility, friendships, personal development and travel opportunities. I love helping Team members grow their business and have made life-long friends who I would never have crossed paths with if it wasn't for Norwex.

I am proud that I'm setting an example for my children in ways to look after our homes and the planet and help create a brighter future for generations to come."

“ Hosting a Norwex party is fun and easy and you get lots of great rewards for very little effort. I had an online party which meant that I didn't have to tidy my house and I could do it in my pyjamas in the comfort of my own house.

I just invited friends online through Facebook. Rachelle posted lots of interesting and informative posts and videos so that we could learn about the products. Rachelle was very friendly and willing to answer any questions and wasn't pushy. There were lots of competitions that were fun and a great way to win free products. I don't understand why anyone would not want to have a party. Such an easy, cheap way to build up your Norwex collection!

“ I love Norwex products that much that I decided to host my first party in February, and I hosted again recently because the first one was such a huge success! Hosting was so easy and relaxing. I organised a few drinks/nibbles and gathered my friends while my Consultant did the rest. The hardest part was keeping something dirty in the house to demonstrate!

The host rewards are AMAZING! I received over \$800 in FREE products and was super excited to get the Mop System for FREE! Not bad for organising some drinks/nibbles and gathering a few friends together! Do yourself a favour and give Norwex a go. I promise you won't be disappointed!

“ *Being introduced to Norwex 7.5 years ago was the end of a very long search for products that would help my son's allergies. A one-stop-shop for all of our home care needs and superior to everything I had tried, giving Norwex a go made sense. On maternity leave, it was a risk-free opportunity to 'Norwex' our home, by investing a little time sharing these solutions with others. The discovery of a flexible home-based business that aligns with my values has been such a gift to my family, one that has ultimately provided the financial freedom to leave my 9 to 5 career. Joining Norwex has also meant the additional blessings of friendships, personal growth, recognition, travel and showing our 3 boys you really can love what you do. Helping others create healthier homes, and give Norwex a go, is now my privilege, purpose and passion.* ”
