IT'S TIME FOR A Change

More than 20 years ago, Norwex Founder Bjørn Nicolaisen discovered a better way to clean, with fewer chemicals and less waste using a microfibre cloth. It was a small change, but now millions of people just like you have cleaner, healthier homes.

Did you know?

- More than 85,000 chemicals have been created in the last 50 years.
- Only a small percentage have ever been tested to determine their impact on human health.*
- About 300 million tons of plastic is produced globally each year; less than 10% is recycled.**

Harmful chemicals in household cleaning products affect our health and damage our environment.

We are just like you—we want to do better, be better and create Safe Havens for our families. And we are doing just that, one healthier home at a time.

IMPROVING QUALITY OF LIFE
BY RADICALLY REDUCING CHEMICALS
IN OUR HOMES.

*"Think Those Chemicals Have Been Tested?" *New York Times*, April 13, 2013: <https://www.nytimes.com/2013/04/14/sunday-review/think-those-chemicals-have-been-tested.html>

**Plastic Oceans Foundation: <https://plasticoceans.org/the-facts/>

Why Norwex® Microfibre?

Cleaning with only Norwex Microfibre and water reduces the need for harmful chemicals in your home.

- **Extra-absorbent and ultra-durable.**
At just 1/200th the thickness of a human hair, Norwex Microfibre has much more surface area per square metre of cloth.

- **Removes up to 99% of bacteria from a surface with only water.***

Your home stays cleaner, longer!

- **Self-purifies within 24 hours.**
Our BacLock®** antibacterial agent (micro silver) in the wet cloth self-cleanses to drastically reduce mould, fungi and bacterial odour.

- **Saves time and money.**
A typical family of four saves almost \$600 a year on cleaning supplies; plus you clean in about half the time!

* When following the proper care and use instructions.

** This graphic is noted throughout the catalogue to differentiate those products that contain an antibacterial agent for self-cleansing purposes only. The agent is solely designed to inhibit bacterial odour, mould and/or mildew growth within the product.

How Norwex Microfibre Works

Traditional cotton cloth pushes around particles, spreading dirt, grime and moisture into the surface crevices, leaving it moist and unclean.

Norwex Microfibre lifts and collects even the smallest particles of dirt, grease and moisture, leaving surfaces free from everything.

Norwex Microfibre self-purifies. Used wet, the micro silver in the cloth goes to work with self-purification properties.

USE IT DRY TO DUST

By producing an electrostatic charge, Norwex Microfibre picks up and holds even the smallest particles for a cleaner surface that lasts longer with no harmful chemical residue to collect more dust.

USE IT WET TO CLEAN

When wet, Norwex Microfibre loosens and lifts the most stubborn dirt and debris up into the cloth and off the surface.

CARE IS EASY

For best results, simply wash using a Norwex laundry detergent and toss in the dryer. Avoid bleach, fabric softeners and dryer sheets as they will coat the fibres and reduce their ability to clean effectively.

Some surfaces and finishes can be easily damaged. Please always test Norwex Microfibre on an inconspicuous spot first. Do not use microfibre (except Norwex Optic Scarf) on anti-glare surfaces.

All Norwex Microfibre products carry a two-year warranty. Please visit www.norwex.com/product-guarantee for complete details.

Available in five colours, allowing you to colour-code for different purposes or rooms.

- Made with more than 3,000 kilometres of microfibre for more effective cleaning power. *That's enough microfibre to stretch from Brisbane to Darwin!*
 - Picks up and hold more dust, dirt and debris than other cleaning cloths.
 - Holds several times its weight in water.

My Story

"When I joined Norwex five years ago, it was just to buy for myself, family, and friends. I remember thinking at the time that it would be a "tool in my tool belt" if we ever needed extra money. A few parties lead me to a few more and today I have an incredible thriving business, an amazing Team and life-long friends. The Norwex opportunity is a gift and one that's been a total blessing to our family. With a very low start up cost and the ability to buy wholesale and earn income anytime – what have you got to lose?"

From cake batter, to flour and greasy butter they leave dishes clean and shiny and they don't smell. Say goodbye to gummy sponges and hello Norwex Dish Cloths!"

"I joined Norwex 2 years ago because I loved the products so much. I wanted to share the love around with my friends all over the country through online parties, to be able to do it from my couch and earn some money at the same time as when my kids were in bed. FOR A GENTLE, DEEP CLEAN

My Story

"10 years ago I made the leap from sceptical party guest to becoming a Norwex Consultant. I needed to make \$200 a week to help make up the shortfall in our family budget so that I didn't have to go and get a 'normal' job.

Since then, I have gone on to do an average of 2 parties a week, which is over 1000 parties! My family and I now have a life that is beyond what we ever could have believed was possible for us. We have flexibility, freedom and options and a six-figure income which has come because of showing others how to reach their goals and to have the lifestyle they want.

I encourage you to give this a go because you never know what will be possible for you otherwise!"

My Story

"After reluctantly attending a party a couple of months before as a total sceptic, I had left amazed and surprised that Norwex actually worked... I had finally found an alternative to buying sprays and chemicals for our home and I wanted to try (and buy) everything! So, I signed up for FREE to launch my own business and within months I was able to quit the contract work our family had relied on for eight years. Norwex allows flexibility around home-schooling our tribe of five little ones and I can work at a pace that suits our family. Without Norwex, I wouldn't be paying off debt, travelling the world (with free trips!) or educating others and transforming their homes and lives... what a privilege!"

“

I'm so glad I gave Norwex a go! I joined Norwex 5 years ago and have run my business while my husband worked fly-in-fly-out. I have 2 young boys and I am so fortunate to have been able to stay home with them. It gave me something to keep my mind off changing nappies and gave me an excuse to get out of the house where I was making money instead of spending it!

My Norwex income is now my family's savings for holidays and other things we love to do.

“

Let's face it, I joined for the free stuff! But Norwex has given me so much more... an overseas family holiday, job satisfaction, amazing rewards, recognition, growth in self-confidence, and income! I grew my Team interstate purely via Facebook parties from my home in Rural Central Queensland.

20 months after joining I had the confidence to start doing in-home demos. I really enjoy being a Leader and helping others achieve their goals.

My Norwex journey started two years ago and has taken me to places I never imagined. Once educated on the importance and benefits of reducing the use of chemicals within my home I was able to share a wealth of knowledge with my family and friends. Norwex gives you flexibility, a great income, wonderful holidays, free incentives and the chance to be part of a mission to clean up the planet.
