DEDICATED TO SUSTAINABILITY

Norwex creates quality products that help save the earth and your budget by reducing plastic and single-use disposables like paper towels, wipes, dryer sheets and more. Plus, many of our microfibre products contain recycled microfibre yarn. And we're packaging more household products in OceanBound Plastic, helping to reclaim plastic headed for the sea.

EASY AS 1-2-3

a holistic approach to living better

We've got you covered from head to home with advanced microfibre, innovative household cleaners and transformative personal care products that are as safe as they are effective.

Harmful chemicals have no place in your cleaning routine. Get great results using our plant- and enzyme-powered, sustainable solutions, instead.

1 microfibre

From trapping the tiniest dust particles to wiping away stuck-on messes, our superior Norwex® Microfibre is the one cleaning essential every healthy home needs. Plus, it removes up to 99% of bacteria from a surface using only water, when following proper care and use instructions.

3 personal care

Healthier skin, hair and body start with ultra-clean formulas powered by natural, Nordic ingredients. And the healthier you are, the younger you look and feel.

setting the standard for microfibre performance

MECHANICAL VERSUS CHEMICAL CLEANING

Instead of relying on chemicals, Norwex® harnesses the physical power of our microfibre and water alone to easily and thoroughly clean any surface. You get an immaculate clean while radically reducing your use of harmful chemicals that can affect your family's health.

OUR EXCLUSIVE BACLOCK® SELF-PURIFIES

Look for the logo. Norwex Microfibre products containing BacLock®** self-purify within 24 hours when wet! The BacLock® micro silver antibacterial agent embedded in the cloth self-cleanses it—drastically reducing mould, fungi and bacterial odour—so the cloth is ready to use again and again, allowing you to launder it less often. Between washes, simply rinse thoroughly and hang to dry.

SAVES TIME AND MONEY AND HELPS THE EARTH

With Norwex Microfibre, you can eliminate not only harmful, chemical-laden cleansers, but all those single-use disposables like paper towels, floor pads and wipes, too. That's great for the earth and can save you time as well as about \$600 a year. Look for this symbol denoting microfibre products made from 50%–91% recycled microfibre yarn. These products have saved more than 12 million bottles from the landfill. And with no more lugging around totes or switching from cleanser to cleanser for every project, you'll save even more time.

STANDARD 100 BY OEKO-TEX®

When you see OEKO-TEX® you can be sure that every component—from yarn and dyes to trim and label—has been STANDARD 100 by OEKO-TEX® certified free from harmful substances.

All Norwex Microfibre products carry a two-year warranty. For details please visit: norwex.com/product-guarantee.

** This graphic is noted throughout the catalogue to differentiate those products that contain BacLock®, an antibacterial agent for self-cleansing purposes only. The agent is solely designed to inhibit bacterial odour, mould and mildew growth within the product.
 IMPORTANT NOTE: Some surfaces and finishes can be easily damaged. Please always test Norwex Microfibre on an inconspicuous spot first. Do not use microfibre (except Norwex Optic Scarf and Tech Cleaning Cloth) on anti-glare surfaces.

how to care for your microfibre

- Machine washing and drying are recommended prior to initial use. Rinse slightly dirty microfibre cloths under warm, running water and hang to dry** or drop into the dryer.
- Do not use bleach. Do not use fabric softeners or dryer sheets when laundering microfibre; they coat the fibres and reduce their ability to clean effectively.
- Launder microfibre cloths separately or with other lint-free laundry. Dry completely.
- For an even deeper clean, use Microfibre Cleaner Laundry Booster.
- For best results, use a laundry detergent that's free from fillers, like a Norwex laundry detergent.
- Do not use microfibre (except Optic Scarf and Tech Cleaning Cloth) on anti-glare surfaces.

**When air drying, always hang to dry, as leaving darker colours of damp microfibre on benchtops may stain the surface.
